Professional Overview

BCA student with a strong interest in Data Analytics, Python, and technology. Currently developing skills in Python and NumPy while building a foundation in data analysis, data handling, and problem-solving through practical projects and hands-on learning. Also experienced with front-end development and Python-based web applications using HTML, CSS, JavaScript, and Flask. Eager to apply technical and analytical skills in real-world projects, gain hands-on industry experience, and grow as a Data Analyst.

Projects

CLOUD MERIDIAN — Weather Application

- Developed a responsive weather application using Python and Flask to provide real-time weather information.
- Integrated the Open-Meteo API to fetch and display current weather data for cities across India.
- Built a user-friendly interface using HTML, CSS, and JavaScript with city selection and dynamic weather updates.

SANDHU-PORTFOLIO — Personal Portfolio Website

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Showcased skills, projects, education, internships, and certifications.
- Added interactive sections, animations, and a functional contact form.

LIBRARY DESK — Library Automation Tool

- Developed a library management application using Python and Flask to manage books and members.
- Implemented input validation, data processing, error handling, and structured library workflows.
- Added automated testing using Pytest to verify application functionality and improve reliability.

SANDHU FITNESS – Gym Website

- Developed a modern gym/fitness website with service and landing pages.
- Focused on UI design and user-friendly interface.

Education

Bachelor of Computer Application-(BCA) (5th sem), ST. ANDREWS INSTITUTE OF TECHNOLOGY AND MANAGEMENT

2024 – Present | GURUGRAM, HARYANA

Currently pursuing Bachelor of Computer Applications (BCA), with a focus on programming, data analytics, and web development.

CLASS 12 (COMMERCE STREAM),
GURU NANAK ENGLISH SENIOR SECONDARY SCHOOL
04/2019 – 04/2020 | BHILAI, CHHATTISGRAH

Hobbies & Interests

- Coding and Building Web Projects —
- Exploring Software Development Concepts
- Learning Python and New Technologies

Technical Skills

Python
HTML, CSS, JavaScript
Flask
Git & GitHub
C Programming
C++

Soft Skills

Good Communication Skills

Quick Learner

Teamwork

Time Management

Problem Solving

Languages

PUNJABI
HINDI
